

# Kylie Minogue, Your disco needs you (spanish)

Your disco, your disco, your disco needs you  
Your disco, your disco, your disco needs you  
Desperately seeking someone, willing to travel  
You're lost in conversation and useless at Scrabble  
Happiness will never last, darkness comes to kick your ass  
So let's dance through all our fears, war is over for a bit  
The whole world should be moving do your part, cure a lonely heart.  
Your disco, your disco, your disco needs you  
Your disco, your disco, your disco needs you  
We're sold on vanity, but that's so see through  
Take your body to the floor, your disco needs you  
From Soho to Singapore, from the mainland to the shore  
So let's dance through all our fears, war is over for a bit  
You're a slave to the rhythm do your part, cure a lonely heart.  
Oooh Oooh Oooh, Oooh Oooh Oooh Ahooooooooo  
Oooh Oooh Oooh, Oooh Oooh Oooh Ahooooooooo.  
Nunca estas sola, sabes lo que tienes que hacer  
No vayas a tu pueblo, tu discoteca te necesita  
So let's dance through all our fears, war is over for a bit  
The whole world should be moving do your part, cure a lonely heart  
Your disco, your disco, your disco needs you ... (x3)  
your disco, your disco, your disco needs.. YOU
