

Kym Marsh, All Over You

Sometimes I lie awake at night
And think of you
I close my eyes it feels so good
You know what I do
You make it hard to catch my breath
I never knew
Feels so good when I'm all over you

Up and down, round and round
Yeah you got me now
One on one here I come

I'm all over you
Your taking me under
I'm enjoying the view
Come and show me the way
I'm all over you
Your making me lose myself
So baby keep me coming on

You make me feel so beautiful
Your touching me
My intuition takes control
I'm taking the lead
I put my finger to my lips
Just let it be
Feels so good when your all over me

Up and down, round and round
Yeah you got me now
One on one here I come

I'm all over you
Your taking me under
I'm enjoying the view
Come and show me the way
I'm all over you
Your making me lose myself
So baby keep me coming on

I'm all over you
Your taking me under
I'm enjoying the view
Come and show me the way
I'm all over you
Your making me lose myself
So baby keep me coming on

Yeh you got me now
One on one here I come

I'm all over you
Your taking me under
I'm enjoying the view
Come and show me the way
I'm all over you
Your making me lose myself
So baby keep me coming on

I'm all over you
Your taking me under
I'm enjoying the view
Come and show me the way
I'm all over you

Your making me lose myself
So baby keep me coming on
