

# Kym Marsh, Glow

catch a fire  
on your fingertips  
lonely is a place  
but I don't go there anymore  
my desire  
I hear from your lips  
wont you say again the  
words my heart has waited for  
when I feel  
the summer in your smile  
I could take the world on  
anytime  
everyday you make me glow  
in the way you let me know  
all the feelings you cant hide  
sunshine on the inside  
every day you make me see  
there's no other love for me  
I could never let you go  
you make me  
you make me glow  
you make me glowwww  
see the mirror  
I don't know myself  
who's the girl who's staring back at me  
she looks so strong  
you get closer  
there's nobody else  
who can make me sure  
I'm doing right not doing wrong  
when I feel  
the summer in your smile  
I could take the world on  
anytime  
everyday you make me glow  
in the way you let me know  
all the feelings you cant hide  
sunshine on the inside  
every day you make me see  
there's no other love for me  
I could never let you go  
you make me  
you make me glowww  
you make me  
you make me glowww  
when i feel  
the summer in your smile  
I could take the world on  
I could take the world on  
anytime  
everyday you make me glow  
in the way u let me know  
all the feelings you cant hide  
sunshine on the inside  
every day you make me see  
there's no other love for me  
I could never let you go  
you make me  
you make me glowww  
(repeat to Fade)
