

La Bouche, The Heat Is On

The heat

The heat

Verse1

Another starry night in September

Another chance for romance

And one more time for me to surrender

To put myself in a trance

The heat is on

The heat is on

Verse2

We're gonna make tonight last forever

And leave all our troubles behind

Lets beat the clock, lets do it together

I'll show you what's on my mind

Chorus:

The heat is on

The heat is on

The heat is on

The heat is on

The heat is on

Verse3

Another starry night in September

Another chance for romance

And one more time for me to surrender

To put myself in a trance

Chorus to fade.
