

La Bouche, Unexpected Lovers

Chorus:

We were unexpected lovers
Not just ordinary lovers
Sharing unexpected love
Nights' true love, true love

Verse1:

How can there be no love
No feelings of passion to
The way we were dancing love
How could it be untrue
We danced the night together
Until the morning light
Baby do you remember
The music was in our eyes

Chorus X 1

Verse2:

On that enchanted evening
A lovers romantic night
The moon and stars were shining
The sea was glowing bright
We spent the night together
Until the morning light
Baby do you remember
The music was in our eyes

Chorus X 1

Bridge:

La la la la la la la la
La la la la la la la la
True love, true love
La la la la la la la la
La la la la la la la la
La la la la la la la la
True love, true love
