

La Luna, Take Me

Chorus:

come on and take me,
take me,
take me as I am.
come on and take me,
take me,
take me as I am.

don't try to change me, don't re-arrange me to show everybody you can
don't try to use me or to abuse me,
let me be the one I am

you always tell me I should change
the way I act, you think it's strange
when you want this dream to last,
you should try to forget my past.
I am what I am, this is me you see,
don't change a thing about me

Chorus

you always tell me I should change
the way I act, you think it's strange
when you want this dream to last,
you should try to forget my past.
I am what I am, this is me you see,
don't change a thing about me

come on and take me
come on and take me

Chorus (2x)

come on and take me
