

La Roux, Uptight Downtown

The streets are on it people
The people who want to move, move, move
How could all these people have so much to prove, prove, prove
I can only ask myself
Oh where are you all going
And won't you take me with you to
Where all the sirens are blaring

It's all the way downtown
I'll prove that's how they make the ground
And now I know the temperature is rising, is rising
/2x

The streets are on it people
With nothing else to lose, lose, lose
When did all these people decide to change their shoes, shoes, shoes
I can only ask myself
Oh where are you all going
And won't you take me with you to
Where all the sirens are blaring

It's all the way downtown
I'll prove that's how they make the ground
And now I know the temperature is rising, is rising
/2x

It's all the way downtown /4x

Why are we fighting
I don't understand
Oh the temperature is rising tonight
