

# Laava, Wherever You Are

When I feel blue  
I think of you  
Cause you're true  
Wherever you are  
Near or far  
You still are my shining star.

Sometimes its mad  
Things get bad  
And I'm sad  
Wherever you are  
There is light  
By my side  
I feel alright.

Because our love is big  
Bigger than the two of us  
And words cannot describe  
How I miss you so much.

I feel love in your arms,  
And I feel love when im with you  
I feel love in your eyes  
Wherever you may be.

You make me high  
I can fly  
Touch the sky  
Wherever you are  
I feel free in ecstasy  
Just you and me.

You save my day  
Pave the way  
And you'll stay  
Wherever you are  
In my heart  
From the start  
We'll never part.

Because our love is big  
Bigger than the two of us  
And words cannot describe  
How I miss you so much.

I feel love in your arms  
And I feel love when im with you  
I feel love in your eyes  
Wherever you may be.

(Wherever you are)  
(I feel love)

lalalalalalalalalalalalala ... ..

(Wherever you are)
