

# Labrinth, Miracle

we're ll lying here in the dark  
in the dark  
wishing Eden was back to what  
to what it was  
when all of the lights and cameras fade  
hay we ain't no saints  
just empty heads and lonely hearts  
lonely hearts

water to merlot  
pave me a way through the dusk

take me some place safe  
and take away this pain  
I can hope and pray  
but who can save this day

tell me the world's alright  
can't tell me the world don't mind a miracle

can't tell me the world don't mind a miracle  
can't tell me the world don't mind a miracle

we've been crying here way too long  
way too long  
feel so empty we pay foe joy in broken songs  
now won't you shine a light on my darkenst days  
til we se ether sewer sun rays  
god knows I ain;t had faith for nothing  
had faith for nothing

share out your beacon  
pave me a way through the dusk

take me some place safe  
and take away this pain  
I can hope and pray  
but who can save this day

tell me the world's alright  
can't tell me the world don't mind a miracle

can't tell me the world don't mind a miracle  
can't tell me the world don't mind a miracle
