

# Lacrimas Profundere, Sweet Caroline

And now  
We leave us here  
Our lives will break  
On you  
No doubts that you're the one  
And there's no lie  
In you

Sweet Caroline  
I love you more than most  
I want to hold you close  
Till everything will be alright  
But I feel that there is more you need  
And I have to bleed  
For every little dumb mistake

But there's nothing left  
For you my dear to say  
Please go  
Let me alone  
And laugh on me  
Ok

Sweet Caroline  
I love you more than most  
I want to hold you close  
Till everything will be alright  
But I feel that there is more you need  
And I have to bleed  
For every little dumb mistake

Spit on me baby  
Come on, come on  
Spit on me baby
