

Lacuna Coil, Im Not Afraid

watch your back because i am coming closer
shivers down your spine
you were not expecting me
how does it feel to be faced in your territory
are you afraid to see me here
im not afraid
(to take me time to live my life the way i want to)
im not afraid
(to take you down and live my life as i want to)
im not afraid
closer but apart
no one else can hear us
get out of the car
did you want to leave with out me
how does it feel to be faced in your territory
are you surprised to see here
im not afraid
(to take me time to live my life the way i want to)
im not afraid
(to take you down and live my life as i want to)
im not afraid
uh-oh (repeat)
im not afraid
(to take me time to live my life the way i want to)
im not afraid
(to take you down and live my life as i want to)
im not afraid
(to take me time to live my life the way i want to)
im not afraid
(to take you down and live my life as i want to)
im not afraid
