## Lacuna Coil, To The Edge

Here I start to define it As a sign on my skin that I just try to wash away Reminder Infected, it'll be painful to me

Life is so short Close to the edge of another backdoor Life is so sure! Life will be ready to twist up your world

Here it starts to enlighten There's a frame I can't change that I just have to watch again Reminder Repressed inside me, it keeps repeating

Life is so short Close to the edge of another backdoor Life is so sure! Life will be ready to twist up your world

Close to the edge Close to the edge

Life is so short Close to the edge of another backdoor Life is so sure! Life will be ready to twist up your world
