

# Lacuna Coil, Virtual Environment

I saw you fade  
Or was it a dream  
But sooner had I tried to touch you  
The love would disappear

Hard to go on  
You'll never let me down again  
How to go on  
And never be the one to blame  
Before

Floating into your world  
To see what is inside  
Consequentially doomed  
My peace is out of sight

Can't stay away  
Can't stay away from you x2

Hard to go on  
You'll never let me down again  
How to go on  
And never be the one to blame  
Before

Floating into your world  
To see what is inside  
Consequentially doomed  
My peace is out of sight

Can't stay away  
Can't stay away from you x2

(Background vocals)  
No matter I miss you  
Whenever you keep coming through  
No matter I feel you  
Whatever I can't stay away from you
