

# Lady And Bird, See Me Fall

Right here coming to life  
No one to blame  
Right now up and about  
A minute of fame

I've been staying alive  
So many days  
No fear, happy or wise  
All through the way

But I thought there was something  
In life to live for

But if you hear me fall  
If you hear me fall  
If you see me walk upon a bridge  
Then don't recall

But if you hear me fall  
If you hear me fall  
If you see me walk upon a bridge  
You've seen it all

Right here coming to life  
Nothing to blame  
I've been up and about under the rain  
But I thought there was something in life to live for  
Yes I thought you were something in life to live for

But if you hear me fall  
If you hear me fall  
If you see me walk upon a bridge  
Then don't recall  
That you see me

And if you hear me fall  
If you hear me fall  
If you see me walk upon a bridge  
You've seen it all
