

# Lady Antebellum, Boots

have some scratches and some holes from rusty nails  
have some dirt and dust from all those broken trails  
but you shine them up brand new  
girl like you only could do

these boots never walkin out on you  
they ain't got no more running left to go  
whoa, here I am  
whoa, forever your man  
these boots never walkin out on you

it's a miracle they found their way to your door  
it's like they forgot all the places they been before  
took awhile to find their place  
girl, you know they're here to stay

these boots never walkin out on you  
they ain't got no more running left to go  
whoa, here I am  
whoa, forever your man  
these boots never walkin out on you

these boots never walkin out on you  
these boots never walkin out on you  
these boots never walkin out on you  
these boots never walkin out on you
