

# Lady Antebellum, Get to Me

The night is high  
Got a full moon risin'  
And you know this is the time I get a little bit lonely  
And I can't fight it, I can't hide it

Don't know where you are  
But I want you just like lightnin'  
Shootin' straight out of the sky, come and strike me with your light  
Ignitin', yeah ignitin'

Gotta get to me, gotta get to me  
You gotta spread your wings and start flyin'  
Like a drop of rain, gotta find a way  
Don't hit the brakes,  
Just come and crash through my horizon  
Bring back the air, I need to breathe, baby  
You gotta get to me.

The bottle is empty  
And I'm dancin' in the shadow of a memory  
Yeah, call me crazy  
But I still got this schoolgirl's dream

You gotta show up and kiss me  
Pull me in, hold me tight, love me and carry me away  
Like there's no more tomorrows  
And no more yesterdays

Gotta get to me, gotta get to me  
You gotta spread your wings and start flyin'  
Like a drop of rain, gotta find a way  
Don't hit the brakes,  
Just come and crash through my horizon  
Bring back the air, I need to breathe, baby  
You gotta get to me.

Gotta get to me, gotta get to me  
You gotta spread your wings and start flyin'  
Like a drop of rain, gotta find a way  
Don't hit the brakes,  
Just come and crash through my horizon  
Bring back the air, I need to breathe, baby  
And get to me.

Get to me, get to me, yeah.  
You gotta get to me.  
The night is high  
Got a full moon risin'
