

# Lady Antebellum, I Did With You

I remember thinking 'bout forever  
Sitting there with you by the river  
We danced in the headlights  
And fell for the first time

I remember telling you I loved you  
The Northern star rising above you  
And in that moment I thought every dream would come true  
Oh, but some just never do

Love comes in circles  
And love takes its own time  
Bending and breaking,  
Not taking a straight line  
I never knew another love timeless and true  
Oh, but I did, yeah, I did with you.  
Oh, I did, I did with you.

Through the years I just kept on believing  
Had to be a plan or a reason  
But Heaven was silent and life just kept moving along  
'Til my heart knew the moment was gone

Love comes in circles  
And love takes its own time  
Bending and breaking,  
Not taking a straight line  
I never knew another love timeless and true  
Oh, but I did, yeah, I did with you

Love is the reason why  
Miracles never die  
They just live on and on  
Like a song, like a song  
In the hearts of the ones you leave behind

Ooh, yeah

Love comes in circles  
And love takes its own time  
Bending and breaking,  
Not taking a straight line  
I never knew another love timeless and true  
Oh, but I did, yeah, I did with you.  
Oh, I did, yeah, I did with you.
