Lady Antebellum, Pictures

there's a 4-by-6 of a sinset kiss and one of you laughin' at me catching my first fish one on Valentine's Day whit the mariachi band at our favorite place

we sure looked happy in pictures the camera doesn't show the way it hurt no, that ain't the way I remember it happened in between the flashes it was sad It was tragic we sure looked happy in pictures

there's one on my phone
that I can't erease
but you'd never know by the smile on my fae
tthat inside iwas dying
later that night I'd be crying
the last one before goodbye

we sure looked happy in pictures the camera doesn't show the way it hurt no, that ain't the way I remember it happened in between the flashes it was sad It was tragic we sure looked happy in pictures

no photo evidence, not a single proof of all the hell that we went through

but damn, looked happy in pictures the camera doesn't show the way it hurt no, that ain't the way I remember it happened in between the flashes it was sad It was tragic we sure looked happy in pictures
