

# Lady GaGa, Sine From Above (feat. Elton John)

When i was young, I prayed for lightening  
My mother said it wuld come and find me  
I found myslef whitout a prayer  
I lost my love and no one cared  
When i was young, I prayed for lightening

I looked with my face up to the sky  
But i saw nothing there, no, no nothing there  
I stared while my eyes filled up whit tears  
But ther was nothing there, no, no nothing there

I heard one sine from above  
I heard one sine from above  
Then the signal split in tow  
The sound created stars like me and you  
Before there was love  
There was silence  
I heard one sine  
and it healed my heart  
heard one sine
