

Lady GaGa, Space Cowboy & Flo Rida, Starstruck

Groove slam work it back
Filter that baby bump that track
Groove slam work it back
Filter that baby bump that track
Groove slam work it back
Space Cowboy just play that track
Gaga in the room so starstruck
cherry cherry boom boom

Rollin up to the club on the weekends
Stylin' out to the beat that you're freakin'
Fantasize on the track that you're tweakin'??
Blow my heart up
Put your hands on my waist, pull the fader
Run it back with original flavour
Cue me up on the twelve on the table

I'm so starstruck

Starstruck, baby could you blow my heart up?
I'm so(x4)

Baby now that we're alone, got a request
Would you make me number one on your playlist
Got your beats by Dr. Dre headphones with the left side on
When it's back and forth back and forth uhuh
Put your hands on my waist, pull the fader
Run it back with original flavour
Put the brake down first
Pop it from chorus to the verse (reverse?)

I'm so starstruck

Starstruck, baby could you blow my heart up?
and so what(x4)

FLO RIDA RAPPING

Starstruck, baby could you blow my heart up?
and so what(x4)

Groove slam work it back

Baby now that we're alone, got a request
Would you make me number one on your playlist
Got your dirty headphones with the left side on
Wanna smack it back and forth back and forth uhuh
Put your hands on my waist, pull the fader
Run it back with original flavour
Put the brake down first
Pop it from the chorus to the verse?
