

Ladyhawke, Dusk Till Dawn

When you hide next to me
With your eyes up close to me
I hear footsteps in the dark
When you hijack my heart

Cool breeze down the hall
I can feel you breathe
Outside my door

Bang bang bang
On the wall
From dusk ' til dawn

Do do do do
Do do do do

Bang bang bang
On the wall
From dusk ' til dawn

Do do do do
Do do do do

Bang bang bang
On the wall
From dusk ' til dawn

When you sense you're not alone
And the darkness starts to moan
Who's there?

Shadows all around
But you don't make a sound
Voices in my head
Playing like an echo, echo

Bang bang bang
On the wall
From dusk ' til dawn
Do do do do
Do do do do
(repeating)
