

# Ladytron, Deep Blue

Deep Blue I wanna take you to the sun  
in the power station at the heart of town  
I'm sorry for the news the other day  
Let's go and play before they take it down

Deep Blue I wanna give it all to you  
Deep Blue I know that scares you

Deep Blue let's get a train out of town  
to a place that's easier to get around  
to a place that's easier to get along  
to pretend to be strong Deep Blue

Deep Blue I wanna give it all to you  
Try and make you laugh, Deep Blue  
Deep Blue I know that scares you  
Try and find your smile, Deep Blue

One place we choose straight  
And you make them last more than a day  
Starting with a smile then it fades away  
So stay another day, Deep Blue

Deep Blue I wanna give it all to you  
Try and make you laugh, Deep Blue  
Deep Blue I know that scares you  
Try and find your smile, Deep Blue

Deep Blue I wanna give it all to you  
Deep Blue I know that scares you (x2)
