

# Ladytron, I'm With The Pilots

time in hands, with the pilots and the traveling bands  
when you're down there, don't feel down and out  
you have something you can smile about  
Coke or gin, why are you boys frowning, have you lost something  
the solution that you have for me  
will invalidate my guarantee  
sell something to someone you love  
not someone that you don't  
even though...  
six oh four, Belgian teachers and the cosmonauts  
when you're down there, don't feel down and out  
you have something you can smile about  
holding hands, rocket scientists revise their plans  
the solution that they have for me  
will burn me up on reentry  
sell something to someone you love  
not someone that you don't  
even though...
