

Ladytron, The Lovers

We're the silence that wakes you day
We're the sound of your name outside the room
We're the sirens across the street
Where the lane it becomes an avenue

Oh we're right under you nose
We're the lovers that you don't know
Baby we go and you follow
We are the lovers, the lovers you don't know

We're the lovers that you don't know
We're the sound of you name outside the room
We're the sirens across the street
Where the lane it becomes an avenue

Oh we're right under you nose
We're the lovers that you don't know
Baby we go and you follow
We are the lovers, the lovers you don't know

Oh we're right under you nose
We're the lovers that you don't know
Baby we go and you follow
We are the lovers, the lovers you don't know
