

# Laibach, We Are Millions And Millions Are One

Love takes me over  
Like a rising rocket  
Love takes me over  
Like a shining diamond  
Love takes me over  
With golden badges on the chest

What I am you'll become

I saw the light  
We're all so much alike

Come to me, do not fight

I lost control  
Over the big blue sky

So what do you want?  
You shine so bright  
But it's dark in the heat of the night  
So why do you want  
To share your story  
In the dark

We're rising higher  
Come, don't look back now  
Let's reach the stars  
Before the sunrise  
Love takes us over  
Across the point of no return

We are millions  
And millions are like one

Embrace the new day  
Reflecting in your eyes
