

# Lake, Listen To Me

Listen to me, listen to what I say  
cause I'm a telling you look up and see,  
I'm telling it to your face how its gonna be  
Listen to me, listen to what I say  
cause I'm a working here  
Listen to me  
Down in a hole ain't fun no security

Listen to what I say  
I've been working in this coal mine  
29 years for hay, see the blood in my eyes

What we need ist 10% more fee no compromise  
What you give us ain't enough to live  
on can't survive  
Not in this time

Listen to me, you've heard it  
before it's called solidarity  
This ain't no plea  
We're telling it to your face how it's gonna be  
Listen to me, listen to what I say cause I'm worker here  
Listen to me  
You promised before but now we don't want to hear

Strike strike for what you believe in  
Get up get up give a piece of your mind  
Strike strike tell them you're leaving  
Got to say it fast I'm on company time
