

Łąki Łan, Armanda

I don't want to make my heart
go around just like I stuff my love inside.
Even in a world of greed
I would find you
Find you in a cosmic wave
trying to do my best
hymn of an angel's dust
always on the run
from a star to graze
Angel's dust always on the run
from a start to grave.

Lover's law is to try so hard come on
always's gone to feel that love could save the truth
fell in love.

Levitate
through my worst trial
know the feeling
in my chest
is just
for loving you
every night

Lovin is forever
baby we're together
fire from the heaven's
movin in ya breath
and might I flow through you
every night
/2x
