

Lamb, Bonfire

Have you ever wondered why those days exist
When life just seems to be the conspiracy against you
I don't know where the answers lie
But I try not to get hung up on the questions
I burn like a good bonfire
In whatever I do
I burn like a good bonfire
And I know I'll come through
The time is long overdue for us
As cleaving all of our souls
We all get so complicated in our lives
When walking just walk, when sitting just sit when being just be
Above all don't stray from your chosen path
Burn like a good bonfire
In whatever you do
Burn like a good bonfire
And I know you'll come through
Burn like a good bonfire
In whatever you do
Burn like a good bonfire
And may peace come to you
The time is long overdue for us cleaving all of our souls
We all get so complicated in our lives
Burn like a good bonfire
In whatever you do
Just burn like a good bonfire
And I know you'll come through
Burn like a good bonfire
In whatever you do
Burn like a good bonfire
And may strength flow through you
