## Lamb, Bonfire

Have you ever wondered why those days exist When life just seems to be the conspiracy against you

I don't know where the answers lie

But I try not to get hung up on the questions

I burn like a good bonfire

In whatever I do

I burn like a good bonfire

And I know I'll come through

The time is long overdue for us

As cleaving all of our souls

We all get so complicated in our lives

When walking just walk, when sitting just sit when being just be

Above all don't stray from your chosen path

Burn like a good bonfire

In whatever you do

Burn like a good bonfire

And I know you'll come through

Burn like a good bonfire

In whatever you do

Burn like a good bonfire

And may peace come to you

The time is long overdue for us cleaving all of our souls

We all get so complicated in our lives

Burn like a good bonfire

In whatever you do

Just burn like a good bonfire And I know you'll come through

Burn like a good bonfire

In whatever you do

Burn like a good bonfire

And may strength flow through you
