

Land of Tales, All the same

Tell me why you don't understand
that the world is in the palm of your hand
still it's slipping right through your fingers
Don't look away if you're afraid to say
don't shy away if you want to stay
and never ever listen to those singers
They are failin' to explain you
why the world should entertain you
'Cause they can't tell you
all the reasons
of what it's all about
when to you it's all the same
Whole lot of things going round your head
you want it to stop but sometimes instead
it gets even worse and you wanna fade away
Tell me why you don't understand
that the world is in the palm of your hand
it's just something that you'll have to see today
They are failin' to explain you
why the world should entertain you
'Cause they can't tell you
all the reasons
of what it's all about
when to you it's all the same
