

# LANY, WHERE THE HELL ARE MY FRIENDS

Where the hell are my friends?  
Home alone, not again  
Friday, wine, and the internet  
The only love I seem to get

And I don't and I don't, and I don't know why  
I don't have anyone on a weekend night  
Where the hell are my friends?  
Where the hell are my friends?

Am I starting to hate California  
Why am I in LA?  
40 million in California  
No one cares if I stay

Am I starting to hate California  
Why am I in LA?  
40 million in California  
God, I'm so in love with this place

Where the hell are my friends?  
Out without me again  
Friday, wine and the internet  
A life I wish I could have

And I don't and I don't, and I don't know why  
I don't have anyone on a weekend night  
Where the hell are my friends?  
Do I have any friends?

Am I starting to hate California  
Why am I in LA  
40 million in California  
No one cares if I stay

Am I starting to hate California  
Why am I in LA  
40 million in California  
But, god, I'm so in love with this place

Am I starting to hate California  
40 million in California

Am I starting to hate California  
Why am I in LA  
40 million in California  
But, god, I'm so in love with this place

And I don't, and I don't, and I don't know why  
I don't have anyone on a weekend night  
Where the hell are my friends?  
Where the hell are my friends?
