Lara Fabian, Part Of Me

Look in these eyes you'll see the dark That little space inside my heart The darkest side withholds the light The light that brightens me inside

You don't know

Angels don't fly, they have no wings It is another of those things That we make up That we believe The real thing is not what we conceive

Chorus:

You don't know
I won't let you see me
I will hide, I will lie
As true as can be
You just don't have
What it would take
To be a part of me
These arms are my heart

The darkest side witholds the light The light that shines You can't deny

Repeat chorus (2x)

These arms are my heart These arms are my heart These arms are my heart These arms are my heart
