

Lard, Peeling Back The Foreskin Of Liberty

God's sounded the alarm
Dare not push the snooze button
Your favourite metalhead and mine
Child-molesting freak

Used Seven Seals to scare his flock
So he could sin
Defiled young girls beneath
Posters of Megadeth
But then...

They tried to take his guns
They tried to take his guns
Coulda grabbed him when he's out jogging
Or scamming chicks in bars

But oh no
They brought S.W.A.T. teams and tanks
Waco's a sign
One-World Government

Peeling back the foreskin of Liberty
What do we see?
Ain't God fillin' teeth
It's Jews and Hillary

Communist Chinese
Grind up orphan babies
To sell in powder form
At New Age health food stores

They're trying to take our guns
They're trying to take our guns
They treated Randy Weaver
Like a two-bit pot dealer

Shot up his Little House on the Prairie
At Ruby Ridge
S.W.A.T. teams shoot potheads all the time
But he was a Nazi, dammit

Live Free or Die
Live Free or Die
That's what I say

What's that noise?
It's those helicopters again
See 'em in the sky, they're always black
What does that tell you, huh?

U.N. troops wait in salt mines
Under Detroit of all places
To storm up from the sewers
For door-to-door raids

To take our guns
They're trying to take our guns
Feminazis and eco-terrorists
I'm not making this up

I got my back yard bunker
Machine guns and grenades
To protect myself from you
Trying to take them away

Live Free or Die
Live Free or Die
Live Free or Die
Live Free or Die

Tear down those highway signs
So the U.N. can't find me
White Shangri-La of Post Falls, Idaho
Will now secede

We'll show them
We'll show them
Damn right it's the End Times
When Christians win!

Live Free or Die
Live Free or Die
Live Free or Die
Live Free or Die
