

Larry, George

George sits at his window and he wonders why
He wants to see the morning broken
Wants to feel the sunshine yeah
Come and dance with me my brother
I will play and you'll get high
oh so high
We are full of our beginnings but hesitation takes all our time
George was feeling good
But he didn't know why
Motivation slips away
Replaced with time
For more or less of something else
Oh yeah something else, yeah
George rides around the world and he doesn't try
He's got a scooter for a best friend and a meaning of life yeah
Answers hiding in a question or that look in her eye oh her eye
All strong people stand
But some fly high, some fly
George was feeling good
But he didn't know why
Motivation slips away
Replaced with time
For more or less of something else
George he's wet behind the ears
Waits to find his peace here
Waits to face his fears
Doesn't care about tomorrow
Doesn't care what you say
George wants to go out but not on a day like today
Ummm I, I don't know...
Come on George... Come out and play
George was feeling good
But he didn't know why
Motivation slips away
Replaced with time
For more or less of something else
George he's wet behind the ears
Waits to find his peace here
Waits to face his fears
Don't care about tomorrow
Doesn't care what you say
George wants to go out but not on a day like today
