Larry Greene, Mind Over Matter

Mind over matter Will make a winner Mind over matter Be the bigger

When we look inside Then we will win or lose or draw Everything we are-you know You've got to give it all

Mind over matter Now we are winning Mind over matter A new beginning

Look you in the eye And I will take it to the wall Give it all for life Pick yourself up when you fall

Mind over matter Will make a winner

Sometimes they say that it's just a game That the fools love to play A life is better When you live it upon the edge I tell you what I need The challenger can see There's something to be said About the possibilities

Mind over matter

Now we are winning Mind over matter A new beginning

Mind over matter...
