Lasgo, Deep In Your Heart

I do know life's been hard for you my love We'll take it slow and let our feelings grow Day by day I feel I'm getting closer to you Come with me, won't let you slip away

Deep in your heart you are longing for love I know you want me too Deep in your heart you are longing for love That's all I want from you Deep in your heart you are longing for love You feel the way I do Deep in your heart you are longing for love And I keep longing to be with you

To survive you have tried to run from love Deep down inside you want me in your life Storm by storm I'm breaking down this wall round your heart I hold on to all your fears are gone

Deep in your heart you are longing for love I know you want me too Deep in your heart you are longing for love That's all I want from you Deep in your heart you are longing for love You feel the way I do Deep in your heart you are longing for love And I keep longing to be with you
