

# Laura Branigan, Take Me

(John Parker/Steve Kipner)

I fancied you for a very long time  
You finally got around to makin' your move  
But when you picked me up, you looked so very...  
I wish we could dispense with the preliminaries  
Oh, so much for subtlety  
I can't wait for you to get your hands on me

Oh, take me, take me, please  
Oh, take me, take me

Don't leave me at the door with a good night kiss  
It's guys like you can give a girl a complex  
I've never been so in love before  
I'm not playin' hard to get, that's for sure  
Oh, so much formality  
I can't wait for you to put your hands on me

Oh, take me, take me, please  
Oh, take me, why don't you take me?  
Oh, take me, come on boy  
Oh, take me, take me

Oh, don't let me scare you away  
It's not like me to come on strong  
But love like this just can't be wrong  
So I'm gonna make it easy

Oh, take me, take me...  
It's the holdin' back makes me want you more  
I'm not playin' hard to get  
Oh, why don't you take me, boy?  
Oh, oh, take me, come on, take me...
