

# Laura Marano, A Little Closer

Would you stop  
Wasting time  
You don't need to say you're sorry  
As long as we make it right

Come and waste  
Some of mine  
You're the kind I shouldn't wanna  
But maybe that's my type

Damn you look good when you move your body  
But I bet it look better if you put it on me

Say something  
If you want it like that  
Come a little closer  
Come on let me show you

I'm all in  
If you put like that  
I know I never told you  
But I'm about to show you

If you come a little closer

Just a secret  
You keep  
I can let you take control  
If you let me take the lead

Just a taste  
Bittersweet  
Might be nothing you expected  
But everything you need

Damn you look good when you move your body  
But I bet it look better if you put it on me

Say something  
If you want it like that  
Come a little closer  
Come on let me show you

I'm all in  
If you put like that  
I know I never told you  
But I'm about to show you

I'll tell you how I like it  
Get on my level, vibe it  
No time for analyzing  
Vibe it, vibe it

Damn you look good when you move your body  
But I bet it look better if you put it on me

Say something  
If you want it like that  
Come a little closer  
Come on let me show you

I'm all in  
If you put like that  
I know I never told you

But I'm about to show you

I'll tell you how I like it  
Get on my level, vibe it  
No time for analyzing  
Vibe it, vibe it

Come a little closer
