

# Laura Marano, Let Me Cry

I know I'm being irrational  
Right now a little bit flammable  
So you better watch  
Watch out

I know I'm dressing so casual  
In my bed laying diagonal  
Cause I'm all alone now  
Right now

In three words  
My heart hurts  
So why do I feel it in my whole body?  
All over  
It's the worst  
Feeling down has just become a hobby

I'll stand on my feet, but not today  
I'll hit delete, throw it all away  
I'll be so sweet, right to your face  
But when you leave just let me cry  
Get it all out baby

I'll be alright just gotta play  
Alanis all night and throughout the day  
I'll pick myself up but not today  
Today I am a mess just let me cry  
Get it all out baby

Boy you're not even emotional  
Out of every night, uncontrollable  
How do you do it?  
How?

Why are you post everything you do?  
Is it cause you want me to know that you  
You doing better  
Better than me

In three words  
My heart hurts  
So why do I feel it in my whole body?  
All over  
It's the worst  
Feeling down has just become a hobby

I'll stand on my feet, but not today  
I'll hit delete, throw it all away  
I'll be so sweet, right to your face  
But when you leave just let me cry  
Get it all out baby

I'll be alright just gotta play  
Alanis all night and throughout the day

I'll pick myself up but not today  
Today I am a mess just let me cry  
Get it all out baby

All night

Just let me kick, let me scream  
Just let me kick, let me scream in my pillow

Just let me get, get you out (let me get you out)  
Just let me get, get you out of my system

I'll stand on my feet, but not today  
I'll hit delete, throw it all away  
I'll be so sweet, right to your face  
But when you leave just let me cry  
Get it all out baby

I'll be alright just gotta play  
Alanis all night and throughout the day  
I'll pick myself up but not today  
Today I am a mess just let me cry  
Get it all out baby
