

Lauv, Talking To Myself

I'm tired of talkin' to myself
Of talkin' to myself
Of talkin' to the man in the mirror
Think that I could use some help, yeah
Maybe someone else could help me see it clearer
I've been drinkin', thinkin' too much

One of us has gotta change
One of us has to stay the same
Which one's gonna be the child
Which one is to smile
'Cause all my youth washed away
I took some pills and can't see straight
Now I don't know which way to turn

So tired of talkin' to myself
Of talkin' to myself
Of talkin' to the man in the mirror
Think that I could use some help, yeah
Maybe someone else could help me see it clearer
I've been drinkin', thinkin' too much

Ooh-ooh-oh
I've been drinkin' too much, oh, oh
Ooh-ooh-oh
I've been thinkin' too much, yeah

I know it's been a wild, oh
Since I seen you smile
Took a lot to run away
I came back yesterday
Yeah, who are you? And who am I
To not try to fix this
I been all alone, all night
Tryin' not to listen to my thoughts

I'm tired of talkin' to myself
Of talkin' to myself
Of talkin' to the man in the mirror
Think that I could use some help, yeah
Maybe someone else could help me see it clearer
I've been drinkin', thinkin' too much

'Cause all my youth washed away
I took some pills and can't see straight
Now I don't know which way to turn

I'm tired of talkin' to myself
Of talkin' to myself
Of talkin' to the man in the mirror
Think that I could use some help, yeah
Maybe someone else could help me see it clearer
I've been drinkin', thinkin' too much
