

Lawson, We Are Kings

We're the victims of our pleasures,
Taking control of desire
It's an open invitation
It's a walk across the wire
I will take you home
You will be my soul salvation
We will never be alone
It's a revelation (revelation)

We are kings but they don't believe us, think we are dreamers
We are kings and they try to lead us but we are the leaders
While they're fighting over stones, we'll be taking home the throne
Cuz we are kings and they don't believe us but they're gonna need us

(We are, we are, we are) said we are kings
(We are, we are, we are) it's a revolution
(We are, we are, we are) said we are kings

We have paid our dues, we have earned our stripes
We will never lose, we will stand and fight
And now our victory is written on the wall
We will raise our flag, we will conquer all

We are kings but they don't believe us, think we are dreamers
We are kings and they try to lead us but we are the leaders
While they're fighting over stones, we'll be taking home the throne
Cuz we are kings and they don't believe us but they're gonna need us

We are kings
We are kings
