

Lazy Town, Master Of Disguise

I'm the master of disguise
I can vanish from your eyes
I can be in different faces
With my many friendly faces in disguise
Sometimes it's so nifty
When I'm really really shifty in disguise
It's disguise time!
It's so easy to deceive you
With the sneaky little tricks
And I make you believe
Each character that I pick
When you look for me
I'm gone in front of your eyes
People call me the master of disguise
I'm as sneaky as can be
No one's sneakier than me
I can get so sly and loathing
When I dress in other clothing in disguise
You walk right by me
Not knowing that I'm that slimey
A scary dinosaur
With a loud ferocious roar! I'm so glad
But I'm so tricky
Even so Saint Nicky
When you look for me
I'm gone in front of your eyes
People call me the master of disguise
I'm the master of disguise!
