

Lazy Town, We Will Be Friends

What if your friends
Just dont wanna be friends
But you need to beleive
It's not really the end
And you've been pulled apart
But you know in your heart
That you wanna reach out
But dont know where to start
I really regret
The things that we've said
It's hard to forget
But I hope that
We will be friends, tomorrow
Right to the end
And then we will wipe away tears, and sorrow
If we can be friends again
Remember the way
We would hang out all day
And whatever we did
Always turned out ok
One thing is for sure
And everyone knows
That we shoould stay close
And I hope that
We will be friends, tomorrow
Right to the end
And then we will wipe away tears, and sorrow
If we can be friends
I know, It's true
Nothing can last Forever
But Still, I feel
This friendship will last
Just like in the past
We will be friends, tomorrow
Right to the end
And then we will wipe away tears, and sorrow
If we can be friends
If we can be friends, again
