

Le Maximum Kouette, Fake

I won't let anyone kill my desire, sexuality still must be a fire
I'm talking about fake, I'm yelling no fake
With the lady where do you go ?
It's always the same bitchy story , I lie to you, you lie to me
Her name is Joan , Marie, Nathalie, no matter the name if you have the pussy

I'm losing control , my love has run away
No more sorrows, another song to play
I'm losing control , my love has run away
No more sorrows, another song to play

It can be you, it can be me, love me tender, if you fake no matter
It will happen soon again, it's called shame and pain (x2)
Fake, fake, yes you could be killed (x3)

I'm losing control , my love has run away
No more sorrows, another song to play
I'm losing control , my love has run away
No more sorrows, another song to play

Please my love teach me desire, take my heart and burn it in fire
I don't want you to fake, make it sure no mistake, be the one or let me go
Make up your mind , stop being blind. I'm your kind of pearl, your sweet sugar girl

I'm losing control, but no need to cry
I'm losing control, I tell you goodbye

I'm losing control , my love has run away
No more sorrows, another song to play
I'm losing control , my love has run away
No more sorrows, another song to play
