

# Lea Michele, Cue the Rain

How many times have I driven this road  
All my way home  
It's always the same  
So many people just stand in the line  
They're chasing the lights  
But losing their way  
And I find myself looking for you  
Yeah, I find myself looking for you, looking for you

The city was on fire for us  
We would've died for us  
Up in flames  
Cue the rain  
In my heart little sparks everywhere that you are  
Up in flames  
Cue the rain

Head lights and tail lights they all look the same  
We come and we go  
It's something to chase  
Hard to remember what we left behind  
But your hand in mine is hard to erase  
And I find myself looking for you  
Yeah, I find myself looking for you, looking for you

The city was on fire for us  
We would've died for us  
Up in flames  
Cue the rain  
In my heart little sparks everywhere that you are  
Up in flames  
Cue the rain

And I'll stay, yeah, anything but okay  
And I'm fade tonight

The city was on fire for us.  
We would've died for us  
Up in flames  
Cue the rain  
Cue the rain

Why can't I stay?  
Away, away  
Save it away

And I find myself looking for you  
Yeah, I find myself looking for you

The city was on fire for us  
We would've died for us  
Up in flames  
Cue the rain  
In my heart little sparks everywhere that you are  
Up in flames  
Cue the rain

And I'll stay, yeah, anything but okay  
And I'm fade tonight

The city was on fire for us.  
We would've died for us  
Up in flames  
Cue the rain
