

Lea Salonga, We Could Be In Love

(verse 1)

[Lea Salonga]

Be still my heart

Lately its mind is on its own

It would go far and wide

Just to be near you

[Brad Kane]

Even the stars

Shine a bit bright I've noticed

When your close to me

[Lea Salonga]

Still it remains a mystery

(bridge)

[both]

Anyone who's seen us

Knows whats going on between us

It doesn't take a genius

To read between the lines

(chorus)

[both]

and its not just wishful thinking

or only me whos dreaming

i know what these are symptoms of

we could be in love

(verse 2)

[Lea Salonga]

I ask myself why

I sleep like a baby through the night

Maybe it helps to know

you'll be there tomorrow

[Brad Kane]

Dont open my eyes (oOOooO)

I'll wake from the spell I'm under

makes me wonder how

(tell me how I could live without you now)

(bridge)

[both]

and what about the laughter

the happy ever after

like voices of sweet angels

are calling out our names

(chorus)

(key change)

[Brad Kane]

all my life i have dreamed of this but i could not see your face

[Lea Salonga]

dont ask why to such distant stars can fall right into place

(bridge)

(chorus)

oh it doesnt take a genius to know what these are symptoms of..

we could be (oo oh)

we could be

we could be in love

could be in

....we could be in love....
