

# Leaf-Fat, Burnbitchburn

Let's just paint the walls in black and here we go  
Plans for mass destruction, it was your serenity i stole  
Don't tell me this is a curse?

What's happening now?  
Seems to me that you made me bleed  
Made me bleed

Seems to me you sucked the blood

From our hearts, from our wounds, from our veins.  
(we've meant it all)  
From our hearts, from our wounds, from our veins.  
(everytime we bleed for you)

3,2,1 here we go!  
Hope now that you'll burn someday!

Bleed!  
Now i hope that you'll burn someday!  
You will  
Label! Criticize! Label! Label, just label me!

Label me and i'll cover my face with a new mask  
Criticize and let the lies pierce your shinny eyes

Unmask me your poor attempt of full disclosure  
Reveal the secret, your clown unmasked  
Sisyphian task
