

Leaves' Eyes, Realm of Dark Waves

I'm the ruler of the roaring waves
Mortals fear my name
I'm the mother of nine wave maidens
Rán, the goddess of the sea

Stormy wind and crashing waves
Pave my way to you
Now I cast my baleful net
You shall be my destined prey

Where the ocean breaks
Deep in the night
Hungry maw of sea
Is open wide

In the realm of dark waves
I long for you
Lead you into the depths
Of ocean blue
In the realm of dark waves
Sun never shines
Lost in eternal sleep
Your soul forever mine

I'm the ruler of all sea ways
(Sea ways)
Seamen fear my name
(My name)
Spare some gold to save your life
In the eye of storm

Shipwrecked treasures in the deep
(In the deep)
Secrets sailors keep
(Sailors keep)
Listen to the sound of the sea
Drowned ocean melodies

Where the waves are high
Ebb and flow collide
See the storms of fate
In the Northern sky

In the realm of dark waves
I long for you
Lead you into the depths
Of ocean blue
In the realm of dark waves
Sun never shines
Lost in eternal sleep
Your soul forever mine

Fateful seabed
Hall of drowned spirits
Lured by the beauty
Of the mermaid

In the realm of dark waves
I long for you
Lead you into the depths
Of ocean blue
In the realm of dark waves
Sun never shines
Lost in eternal sleep

Your soul forever mine
