

Lee Ann Womack, Everything But Quits

I thought of walkin' out on you
It's crossed my mind a time or two
Nights we almost called it a day
And days we almost threw our love away

Chorus:

We've thrown around goodbyes
Called us off a thousand times
We've called it everything but quits
We've said some things that hurt
But love's always had the last word
We've called it everything but quits
Well I might get mad but it don't last
Said things but always took 'em back
Like all those I don't love you's anymore
But anything worth havin' is worth fightin' for
