

Lee Ann Womack, I Need You

I need something like morphine only better
I need something like a kiss that lasts forever
I need something like money that will not burn
I need something and I need more, more than I can earn

[Chorus:]

I need something, what can I do?
Hey, I need something, I need you
I need something like a cure for my soul
I need something like amnesia, for things I know
I need something like a mother, 'cause I'm just a child
I need something like an asylum, 'cause I go wild
[repeat Chorus]

I need something like dynamite for the mess I'm in
I need something like a tattoo underneath my skin
I need something more than a lover in my bed
I need somebody here with me, here with me in my head

[repeat Chorus]

I need something bad and I need it now
I got something wrong with me, you can see
I think you better fix it 'cause I don't know how
Hey, I need something, what can I do
Hey, I need something, I need you
I need something, what can I do
Hey, I need something, I need you

[Repeat Chorus]
